**KING CIROX / DIANTARA / SETARA**

Description and Picture

KING CIROX and DIANTARA are vessels that accommodate tourists for a more economical tour of Komodo National Park. These vessels are on standby at the docks or harbors of Labuan Bajo. These vessels are used to tour many of the islands within Komodo National Park, including Komodo Island, Rinca, Padar, Kanawa, Pink Beach, Manta Point, Gili Laba, Sebayur, Seraya Island, Kalong, Kambing, and Kelor. We are very confident in the performance of these vessels, providing the best tour service, safe, comfortable, and clean. The advantage of these vessels is their spacious roof, which is large enough to accommodate the charterer's internal program..
